## **Urology Austin Chooses UroChartEHR**

**Springfield, Missouri – October 9, 2008** – Craig Frazier, president and CEO of Intuitive Medical Software, LLC, announces Urology Austin of Austin, TX, has selected UroChartEHR to replace its existing health record system.

“We are honored that Urology Austin has chosen UroChartEHR,” says Frazier, “and we look forward to a long and mutually successful partnership with its physicians and staff.”

Jill Lewis, CEO of Urology Austin states “We rigorously explored all of the available options for a urology-specific EMR before selecting Intuitive Medical Software as our vendor of choice. We have been extremely satisfied with UroChartEHR, the company, and their continued support of Urology Austin.”

Urology Austin houses sixteen physicians with one mid-level at four main and eight satellite offices all around the Austin area. UA has chosen Sage’s Intergy practice management software to interface with UroChartEHR.

“UroChartEHR’s superior urology content and intuitive user interface combine to provide the fastest, most efficient solution available to a busy, growing practice,” says Frazier.

Increasingly, urology practices across the country are opting for UroChartEHR’s innovative design and functionality. UroChartEHR provides a user-friendly product, with a visually appealing graphical user interface, which is the number one compliment IMS receives from its users.

### **About Intuitive Medical Software, LLC**

Founded by Dr. Howard Follis, Intuitive Medical Software, LLC develops software products for select surgical and medical specialty physicians in the US. UroChartEHR, IMS' flagship product, is streamlined for urology practices. Recognizing the short-comings of generic EHRs when used in specialty practices, IMS has developed an EHR software product that combines a unique, efficient user interface with state-of-the-art database architecture. UroChartEHR includes IMS' patent-pending timeline method of organizing electronic medical records. IMS' current customers have found that once the urologists and their staff become familiar with the system, their clinic's efficiency and productivity rise. With its innovative approach to specialty EHR software, IMS plays a significant role in transforming the quality of our nation's healthcare. Intuitive Medical Software, LLC is not associated or affiliated in any way with Intuitive Surgical, Inc.
