Metropolitan Urologic Specialists, PA Selects UroChartEHR

Springfield, Missouri – January 26, 2010 – Craig Frazier, President and CEO of Intuitive Medical Software, LLC, announces today that Metropolitan Urologic Specialists, PA has selected UroChartEHR to enhance the quality of care delivered by its twenty physicians and streamline operations.

Jeff Schackor, Executive Director, says “The successful adoption of an EHR system is paramount to the continued success and growth of our practice. Our team conducted a thorough evaluation of the systems currently available and our clinicians selected UroChartEHR for its unique ability to meet the needs of our patients and practice.”

“After an exhaustive search process, we decided that UroChartEHR best met our needs for an EHR in that it is user friendly, urology specific and focuses on the key elements required for providing high quality urologic care efficiently. We are keenly aware of our need for an EHR that will be adopted by all of our urologists, junior and senior, "right out of the box" and we found that UroChartEHR best meets those requirements.” quotes Dr. Aaron Milbank.

Metro Urology is an independent medical organization comprised has over 100 support staff members, 20 physicians, and six mid-level practitioners who work to serve their patients at six offices throughout the state. The implementation of UroChartEHR will include interfacing with Orchard Harvest LIS and NextGen Healthcare Practice Management Software.

“Selecting UroChartEHR is a major advancement of our practice and patient care goals. The physicians and staff are looking forward to the benefits this transition will provide.” states Dr. Steven Siegel.

“The UroChartEHR team is proud that Metropolitan Urologic Specialists chose us as their key partner in execution of a forward-thinking EHR strategy. Metro Urology carefully evaluated several EHR solutions and joined a growing number of large, sophisticated, independent urology practices who see the advantages of an EHR solution designed specifically to serve urologists. Together, we will make the successful use of UroChartEHR one of the key reasons Metropolitan Urologic Specialists is ahead of the pack in leveraging EHR technology to further improve patient care, streamline operations and take full advantage of ARRA stimulus incentives.” says Frazier.

Urology practices across the country are opting for UroChartEHR’s innovative design and functionality. UroChartEHR provides a user-friendly product, with a visually appealing graphical user interface, which is the number one compliment IMS receives from its users.

About Metropolitan Urologic Specialists, P.A.

Metro Urology is an independent medical organization based in St. Paul, Minnesota. The practice is committed to excellence in urologic specialty care. Metro Urology specializes in adult and pediatric urology, providing innovative treatment and compassionate, patient-centered care. Founded in 1994 with a merger of

two long standing urology practices and complete with our third merger in 1999, Metro Urology seeks excellence in service, patient satisfaction, outcome management, clinical research, and teamwork. Their success and recognition as a national leader in the practice of urology is a direct result of the collective work of dedicated staff members and physicians.

About Intuitive Medical Software, LLC

Founded by Dr. Howard Follis, Intuitive Medical Software, LLC develops software products for select surgical and medical specialty physicians in the US. UroChartEHR, IMS' flagship product, is streamlined for urology practices. Recognizing the short-comings of generic EHRs when used in specialty practices, IMS has developed an EHR software product that combines a unique, efficient user interface with state-of-the-art database architecture. UroChartEHR includes IMS' patent-pending timeline method of organizing electronic medical records. IMS' current customers have found that once the urologists and their staff become familiar with the system, their clinic's efficiency and productivity rise. With its innovative approach to specialty EHR software, IMS plays a significant role in transforming the quality of our nation's healthcare. Intuitive Medical Software, LLC is not associated or affiliated in any way with Intuitive Surgical, Inc.
